Creative® TravelSound™

Powerful stereo speakers for people on the move.

Creative® TravelSound™ is the palm-sized, fold-away, single-unit stereo sound stage for people on the move. Built around two slim titanium drivers for a low profile and high-quality output, with a digital amplifier for in-depth impact and long battery life, Creative® TravelSound™ is a superb solution for people who demand an enhanced listening experience with sound sources like Creative® Jukebox or other portable devices such as MiniDisc®, CD or tape players, or notebook PCs. To ensure the best in high-impact audio, TravelSound™ incorporates a 'wide effect' feature for improved stereo effects and fantastic all-round audio quality.
